Doctor FEELGOODE'S

"YOUR PRESCRIPTION FOR FUN"

Best of the Best

Doctor Feelgoode's is an In Ground Custom Pools contractor in the Lehigh Valley. We are a family-owned and operated business that has been serving the "water needs" of customers in the tri-state area for the past 50 years. We are proud to say we have built over 3,000 In Ground pools in all shapes and sizes.

We have diversified our portfolio of products to handle all types of In Ground request. San Juan is our primary In Ground Pool that we focus on selling. With the desire to give each customer the pool results that they expect once they have made their decision to build a pool, San Juan is the product of choice. With a goal to have water filled in the pool and the pool operations in two days, these customers can plan a summer vacation around their new purchase and know it will be complete.

A company whose inception began with only a few employees and a pick-up truck, now meets our trading area with a dedicated staff of trained swimming pool technicians. Our employees are the key to our companies success. Over the years, we have witnessed the evolution of the Fiberglass In Ground Pool and perfected our installation techniques to guarantee a perfect experience.

From the earliest stages to the unique development of mechanics and automation, we have maintained the necessary training to keep up with our customers taste. From designing custom waterfalls to building structural retaining walls, Doctor Feelgoode's has maintained a level of expertise to guarantee a successful and complete pool project in your yard.

On behalf of Doctor Feelgoode's, we would like to talk to you about a San Juan Fiberglass pool. If there is anything we can do to supply you with product information or if you would like an in house yard survey ...

“The dream of having a pool is a lot easier and more affordable than you think with fiberglass pools.”

"We have been taking care of our family of San Juan customers BEFORE, DURING and AFTER the sale for over 60 years!"

- Kirk Sullivan, President -

ABOUT SAN JUAN POOLS

Since 1958, San Juan has grown from a small Washington based company to a well governed nationwide organization with numerous manufacturing plants throughout the United States. Along with each plant's network of locally owned independent authorized San Juan Dealers, they design and craft the most elegant fiberglass pools in America.

That first San Juan Fiberglass pools started a worldwide revolution in the manufacturing of fiberglass swimming pools and while many have tried to copy San Juan Fiberglass Pools, none have succeeded. Now over 60 years later, quality San Juan Fiberglass pools are being installed in beautiful homes all over the world.

GLOBAL MARKET LEADER

Since 1958, San Juan Pools has led the world in Fiberglass Pool technology.

Fiberglass swimming pools were invented by San Juan Pools over 60 years ago and are available worldwide.

With over 600 independent dealers nationwide, and tens of thousands of pools across America and the world.

San Juan Pools is a family owned business - from our family to your family we deliver excellence.

MASTER CRAFTSMEN

San Juan Pools continues to lead the world in Pool Construction Excellence. Each San Juan Fiberglass Pool is constructed by Master Craftsmen who draw on 60 years of innovation and construction expertise. Your San Juan Pool is hand built with care - to last a lifetime.

MAXIMUM VALUE

Your pool becomes part of your home and a San Juan pool will look just as good in 30 years as the day it was first installed - our legendary quality ensures your home retains its beauty and value when it's time to sell.

For 60 years San Juan Pools has outlasted competitors and imitators, steadfastly producing the finest fiberglass swimming pool available today.

TIME LAPSE
Building a SJP Pool

COLD RESISTANT

Even under the extreme cold temperature by using Liquid Nitrogen (-321degrees fahrenheit) a San Juan Fiberglass pool doesn't fail. As you can see in the photos, vinyl liners and concrete crack and break, San Juan does not. This proves that San Juan Pools hold up in extreme cold temperatures.

ACID RESISTANT

Muriatic Acid can't harm a San Juan Fiberglass Pool! Acid is a major component in your water chemistry and when not maintained properly it can hurt the finish. This test shows how swimming pool acid can destroy a concrete pool. Pouring Muriatic Acid directly on a concrete pool starts destroying it immediately, however, it has no effect on San Juan pools.

BULLET RESISTANT

Bullet-Proof San Juan Fiberglass Pools! That's right bullet-proof! A 9mm, 380, 45 and 44 magnum did not penetrate the San Juan Pool. This demonstrates the incredible strength of our hand-laid fiberglass pools. Chopped fiberglass pools offer no resistance as seen in the bottom photo.

Features	San Juan Fiberglass Pools Benefits	Chopped / Composite Fiberglass Pools Difference
Gel Coat	32-Mil total	15-Mil typical
Vinyl Ester Resin	Used throughout entire pool	Typically used on first layer only
Hand Laid	Consistent level of thickness overlapping seams creates a super structure 15 layers thick	No consistency in thickness Sprayed on
Woven Roving	Provides significant strength to entire pool	<u>Not used</u> on chopped pools
Sprayed Chop	Not used on San Juan Pools	Lowest cost construction method
Resin	Higher glass to resin ratio	Lower glass to resin ratio
Coring & Fillers	Not used on San Juan Pools	Makes walls brittle Inhibit flexural strength
Interior ledges	Not needed on hand laid pools	Used to stiffen pool walls, makes area smaller

HEAT RESISTANT

Using a high temperature acetylene torch (5,700 degrees fahrenheit) with its ability to cut through steel still can't hurt a San Juan Pool as you can see in these photos. This proves that San Juan Pools hold up in extreme hot temperatures.

SAN JUAN HIGH-STRENGTH HAND-LAID FIBERGLASS POOLS DON'T REQUIRE LEDGES!

Cheap sprayed on fiberglass pools are built with ledges around them. They are marketed as "safety ledges". These ledges are added to compensate

for the weakness of chopped fiberglass pools. Rather than offer safety, they can actually increase the risk of injury. They also make the bottom of the pool significantly narrower and reduce the play area.

Pool Buying Comparative

Features	San Juan Fiberglass Pools Benefits	vs. Gunite Difference	vs. Vinyl liner Difference
Warranty	25 year non-prorated structural warranty	One year by contractor	Pro-rated only on seam separation
Installation Time	Within days	8 + weeks	5 weeks
Product Quality	Manufactured in a controlled environment	Quality dependent on job-site conditions	Quality dependent on work force
Design Options	100+ models to choose from	Unlimited	Limited to standard shapes
Durability	Flexes under pressure	Rigid, cracks with movement	Punctures and tears
Interior Finish	Smooth, skin friendly	Very rough	Slippery, rough seams
Swim outs, steps, benches, sundecks	One-piece molded in	Only at an additional cost	Drop in type or ladder
Water Chemistry	No harsh chemicals needed	Requires muriatic acid	No harsh chemicals needed

Eco Friendly

Lower chemical use means less impact to the environment. Little or no chemical runoff to harm water table and up to 75% less packing material going to landfills.

Because of the smooth fiberglass finishes, algae and mildew will not adhere, this enables shorter pump run times, less than half of a gunite pool, resulting in much less electrical consumption and lower monthly bills. Self insulated fiberglass construction increases the pools ability to maintain water temperature. This also shortens heater run times reducing the energy needed to keep your pool warm.

A SAN JUAN FIBERGLASS POOL HAS SOME SIMILARITIES TO THE COMMON concrete pool, however fiberglass pools bring significant advantages...

Our fiberglass pools are pre-formed and ready to install. We have over 85 designs from small patio pools to some almost 50' long. Whereas a concrete pool takes a very long time to build - often as long as 6 months or longer. A San Juan fiberglass pool can be installed and ready to swim in as little as two week's time. In fact, the only way to tell the difference between a concrete pool and a San Juan Fiberglass pool once they are installed, is that the San Juan fiberglass pool will look just as beautiful as the day it was installed - and that's a big difference.

When people ask us about installing a San Juan fiberglass pool, we will sometimes compare the process to buying a new car - something we have all done with ease. Most new cars today are offered with a base price and then options and additions are added to get the final configuration for the model you want. A new San Juan fiberglass pool is offered in exactly the same manner. There will be a base price - typically \$25,000 to \$45,000 installed - and at that point if you decide not to add anything you will have the full use of your new San Juan fiberglass pool for decades. It will be "swim ready." Many of us, however, will want to consider optional items such as heaters, additional decking, decorative lighting, water features and all the wonderful things that add to your project's final configuration.

As you move closer to finally deciding which San Juan fiberglass pool will meet your needs, there are some considerations that should enter into the decision making process.

WHY DO YOU WANT A POOL?

This would seem to be self explanatory, but your decision to purchase a new San Juan Fiberglass pool might be based on the needs of your family. It might be for your healthy lifestyle, or it might be for entertaining. Each reason will dictate a different style swimming pool, and you should spend time with your sales professional discussing your needs and expectations to be certain your pool is designed to meet all your needs.

WHAT WILL YOU USE THE POOL FOR?

If you want a pool for family sports, that will be a completely different pool from one used to swim laps. San Juan fiberglass pools have a pool design to fulfill every possible requirement.

Take a moment and examine all the possibilities. Often your new pool will need to fulfill multiple roles, from health considerations to family entertainment, and our pool/spa combinations, or sport pools might be exactly what meets your needs. With San Juan fiberglass pools the possibilities are endless.

WHO WILL DO THE MAINTENANCE?

Swimming pool maintenance used to be a big deal, but with new technologies available today, pool maintenance for your new San Juan fiberglass pool is a snap. Fiberglass pools by their nature have significantly reduced maintenance needs. It is possible to build a new San Juan fiberglass pool that is virtually maintenance free. By adding automatic covers, chlorinators and automatic chemical feeders, along with the new robotic pool cleaners, it is possible to leave the pool maintenance to the machines.

Can I Build?

Will your favorite San Juan Fiberglass Pool fit in your backyard?
Let's find out the easy way with San Juan Pools' "canibuild" software.

Just go to SanJuanPools.com and key in your address,
pick your favorite pool and place in your yard.

It's that simple!!

**LOOK
SCAN ME!**

<https://sanjuanpools.com>

The screenshot displays the 'Can I Build?' software interface. At the top, a navigation menu includes 'Fiberglass Pools & Spas', '100% Financing', 'Gallery', 'Installation', 'Learning & Support Center', 'Pool Owner Resources', 'Engineering', 'Dealer Resources', 'Catalog', 'Financing Program', and 'Contact Us'. A central banner asks 'Can I add a San Juan Fiberglass Swimming Pool to my property?' and states 'With our visualization tools you can see how it looks in your backyard'. Below this, four steps are outlined: 'Step One: Type in Your Address', 'Step Two: Select your Pool Model', 'Step Three: Drag and Position in Your Property', and 'Step Four: Find A Dealer Near You'. The main area shows a satellite map of a residential property with a pool model overlaid. A red arrow points to the 'Step One' section. In the bottom left, there is a smaller inset showing a pool model and a text box with information. The bottom right shows a zoomed-in view of the pool model on the map.

NEW SWIMMING POOL **CHECKLIST**

Here are some essential considerations for you to discuss as you near agreement on your new San Juan Pool.

Why do you want a pool? Sometimes we want a pool just for family fun, but sometimes a pool will be for grandchildren or relaxation or perhaps therapeutic use. Whatever your reasoning, be certain you have your pool built for you and your needs. Many people will have many opinions about your new pool, but the most important consideration should be what will be your needs - what do you want? Once the pool is constructed,

you can be certain everyone will agree it is the perfect swimming pool.

Deep end, or shallow deep end? This question has created endless debates over the kitchen table. As you discuss the final depth of your “deep end” remember these things. Children don’t care how deep their pool will be as long as they can play. If you have a serious diver in your home then perhaps a diving pool will be important, but for most people a moderate 5 ½ to 6’ depth will be plenty and will let the adults use the entire pool. The older we are, the less we want to tread water so design your pool for how you want to use your pool. Your children will love whatever pool you choose the first time they jump in.
